

Your window into the regional Financial Services technology ecosystem

Few understand enterprise technology like we do. Founded in 2017 by the Cedar Consulting and IBS Intelligence group, the Lab enables global technology companies to learn faster, leapfrog markets, and partner.

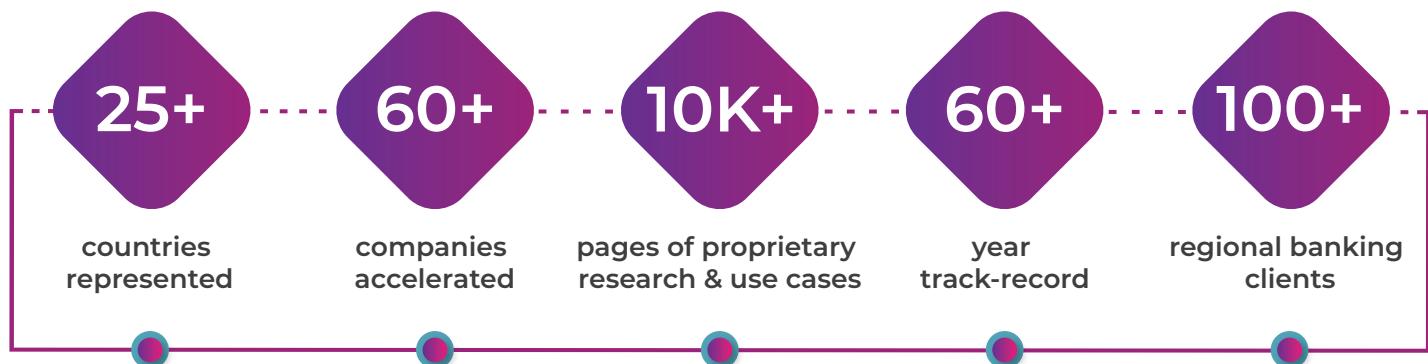

Cedar-IBSi FinTech Lab

The lab is the brainchild of the Cedar-IBSi group, consisting of Forbes-listed global strategy consulting firm **Cedar Management Consulting** and the world's only pure-play Financial Technology research, advisory, and media firm **IBS Intelligence**.

Since 2017, the Cedar-IBSi FinTech Lab is a dynamic platform offering global technology companies a “soft-landing” opportunity into the MENA and Indian market.

\$940mn+ successfully raised by past and current lab members!

Lab Membership offerings

Our lab offering is multi-faceted, global, and suits technology companies at various stages of their life. We offer five key areas of support to emerging and established technology companies:

 **Market Access & Collaboration**

 **Market Intelligence**

 **Venture Capital access** - Pitch to Cedar Hill Capital, the region's leading tech VC backing the best founders building AI-first enterprise technology for the Financial Services industry

 **Acceleration**

 **Visibility**

60+ players have leveraged our lab since 2017
